Subject: Microsoft Settlement

Greetings,

I am writing to let my feelings on the proposed Microsoft settlement be known, a right provided by the the Tunney Act.

It is my belief that allowing Microsoft to continue doing business as a single entity does not sufficiently remedy the circumstances that allowed the company to become a monopoly power in the first place, and subsequently abuse that power. My views are in line with those expressed by Robert Litan and Roger Noll (American Antitrust Institute Advisory Board members) and economist William Nordhaus. I refer you to their Tunney Act comments by way of the following URL:

<http://www.antitrustinstitute.org/recent/162.cfm>

Please accept my thanks for considering my opinion in this matter.

Eric Murray
